

**A**N IMPORTANT NOTE TO CORVETTE OWNERS

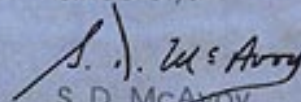

You are among an elite group who value world-class performance and luxury. After all, you own a Corvette. Because you own this world-class automobile, you truly appreciate the sheer power... the unique personality... and the prestige that is Corvette's heritage.

What may not be apparent, however, is how the Corvette has changed for 1991. The refinements include the restyled front fascia with wraparound cornering lamps, rectangular quad tail lamps, new 17" cast-aluminum wheels and even more, as listed on the enclosed 1991 Corvette photograph.

I personally invite you to visit a Chevrolet dealership to experience the heightened sophistication of the new '91 Coupe, Convertible and ZR-1. Special factory to dealer incentives provide just one more reason to consider the purchase of a new 1991 Corvette. Your dealer has all the details.

Reward yourself again with all the excitement only a Corvette can deliver. Please visit your Chevrolet dealer soon.

Sincerely,

S. D. McAvoy  
Marketing Manager Passenger Cars

*Corvette Quarterly*...with our compliments. We are committed to keeping you abreast of the ongoing evolution of the Corvette. That's why I'm extending your subscription to *Corvette Quarterly* for an additional two years. You can continue to add them to your collection. Enjoy.
