

PURE EXCITEMENT.

**WANT TO SEE THE
NEW MINI?**

MINI COOPER

Excitement is at the heart of the new MINI Cooper. Looking forward to the future, the new MINI Cooper takes the character of an automotive legend and mixes it with the latest technology. The result is a car with go-kart agility and a bold new attitude.

The new MINI Cooper will be available in Australia from early 2002 with a comprehensive equipment list including alloy wheels, air conditioning, electric windows and mirrors, remote control central door locking and a 6-speaker radio CD player. For protection there's ABS, driver's and passenger's front airbags and seat-mounted side airbags.

Round headlights, contrasting roof colour and a modern interpretation of the classic MINI grille are the identifying features of the MINI Cooper. The flowing lines and the wide stance emphasise the dynamic feel of this sporty four-seater.

Confident and refreshing, the MINI Cooper screams Live Me, Protect Me, Dress Me, Drive Me.

WHEREVER YOU
GO, GO IN STYLE.

Classic design features
maintain the distinctive
MINI look. The
unmistakable face of a
MINI Cooper.

The MINI Cooper's
interior combines
high quality
workmanship with
refined elegance.

The MINI Cooper is a
genuine four-seater
with the flexibility of
a split-fold rear seat.

LIVE
ME.

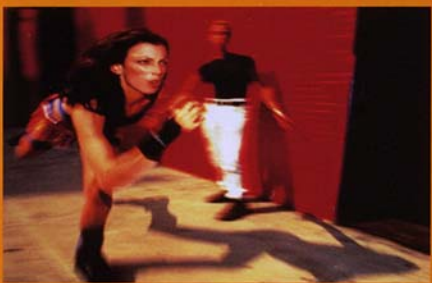

When was the last time you really felt alive? It was probably the last time your heart raced. Real excitement comes from new experiences and that's what the MINI Cooper is all about. A free and open attitude towards life is the soul of the MINI Cooper. With a little bit of cheek thrown in for entertainment.

DRIVE ME.

The objective of the new MINI Cooper is clear – to put a smile on your face. Go-kart agility with a twist of MINI style. With a wheel in each corner, phenomenal body rigidity and the patented multi-link rear axle, you will enjoy every drive. And while you're at it, put a smile on everyone's face, whether they're sitting in the MINI Cooper, driving it or looking at it. Getting from A to B just got a bit more interesting.

PROTECT ME.

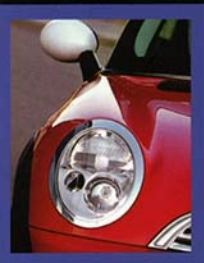

Two to three times the passenger cell torsional rigidity otherwise found in this size of car means not only superb chassis dynamics but also new standards of safety. Combine this with front and side airbags, as well as ABS, and the MINI Cooper seems suddenly rational. Sure, excitement is the core of the MINI Cooper, but all with a sense of social responsibility.

DRESS ME.

The MINI Cooper calls out for individuality. A thoroughly modern design with a bold sense of style, both inside and out. The dynamic looks can be personalised by a wide range of exterior colours, plus the roof and outside mirrors in contrasting white or black. And the interior takes bold to a new level, in design and functionality, with particular attention paid to the senses of sight, sound and touch.
